

# EARTH ENGINEERING COORDINATOR

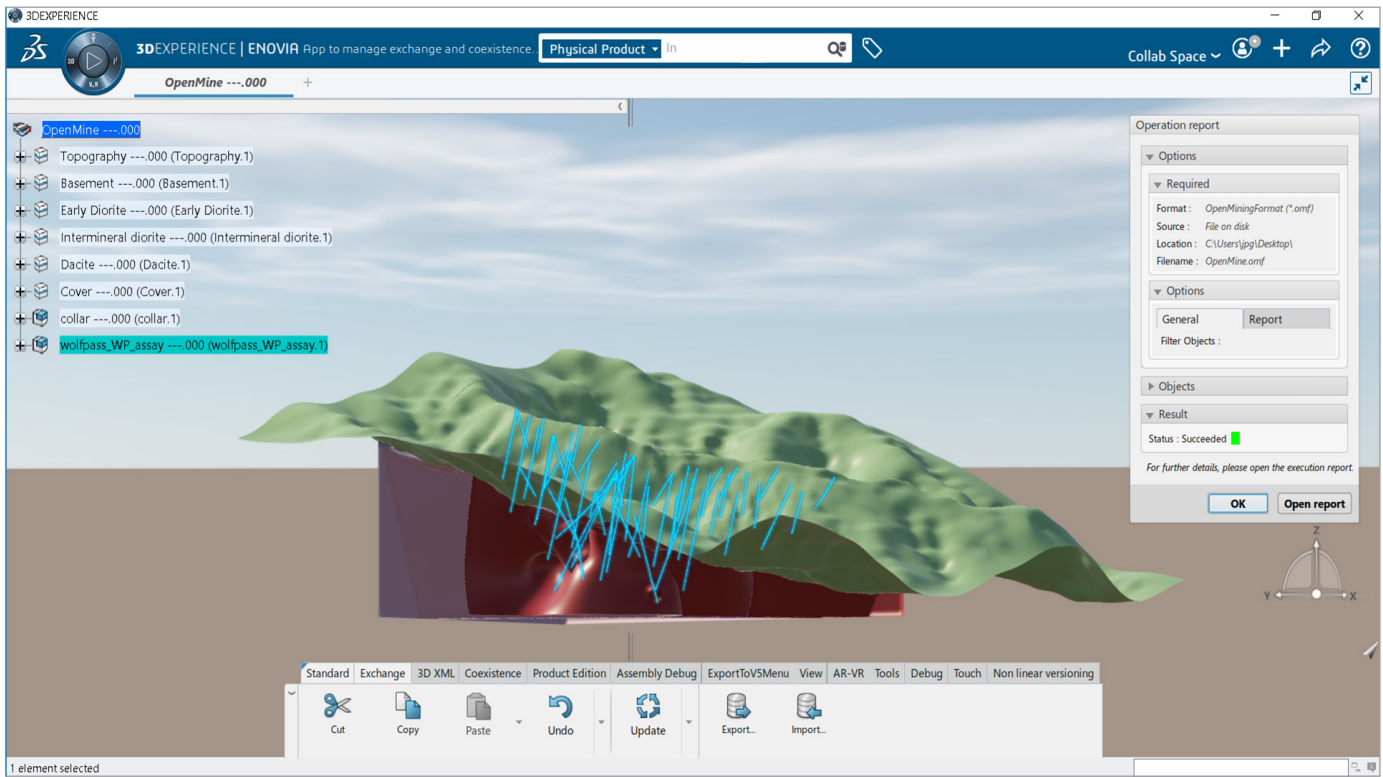

## Consolidate and federate geoscience and engineering information for seamless downstream consumption.

The Earth Engineering Coordinator role keeps Geoscience & Engineering Professionals in sync of multi-discipline/multi-stakeholder geoscience data and interpretation to make better engineering decisions on the single source of truth of natural and built environments 3DEXPERIENCE for Infrastructure.

This role allows users to ingest and visualize geoscience data in an immersive environment, to track relationships between raw and interpreted data in a structured unified referential.

[Watch role video](#)

## BENEFITS

- Manage structured and unstructured geoscience information in the **3DEXPERIENCE** platform
- Unify the referential (Boreholes, geology model, aquifer...) underpinning the single source of truth for infrastructure development
- Collaborate seamlessly for informed and coordinated decision making to accelerate multi-disciplinary convergence
- Drive shared and 360° insight of geoscience for de-risked and cost-effective infrastructure development
- Streamline geoscience information integration with design and simulation downstream processes

## HIGHLIGHTS

- Ingest and visualizes geoscience assets agnostic to source data format and geometry type
- Explore immersive environment through specialized navigation experience for subsurface capital project
- Track the relationship between raw data and interpretation
- Federate and structures geoscience assets under the unified referential with infrastructure engineering models

## Our **3DEXPERIENCE**® platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the **3DEXPERIENCE** Company, is a catalyst for human progress. We provide business and people with collaborative virtual environments to imagine sustainable innovations. By creating virtual twin experiences of the real world with our **3DEXPERIENCE** platform and applications, our customers can redefine the creation, production and life-cycle-management processes of their offer and thus have a meaningful impact to make the world more sustainable. The beauty of the Experience Economy is that it is a human-centered economy for the benefit of all – consumers, patients and citizens. Dassault Systèmes brings value to more than 300,000 customers of all sizes, in all industries, in more than 150 countries. For more information, visit [www.3ds.com](http://www.3ds.com).
